

Korcomptenz

Total Business and Technology Transformation

with a #FocusOnYou

Focus on **success** while we #FocusOnYou

Find growth on your digital transformation journey with Korcomptenz

At Korcomptenz, strive to create a competitive advantage for our clients by addressing their business challenges with commitment, flexibility, empathy, persistence, and trust.

We understand that transformation to win the future begins by aligning the right data and technology platforms to your digital goals.

With almost 20 years of experience, our strong team across India, UAE, Canada and the US helps companies build their digital capabilities.

In an evolving digital landscape, organizations must build strength from within to be able to continuously develop and deliver. With a hybrid of in-house and outsourced applications, we help you:

- 1 Run the business
- 2 Change the business
- 3 Transform the business

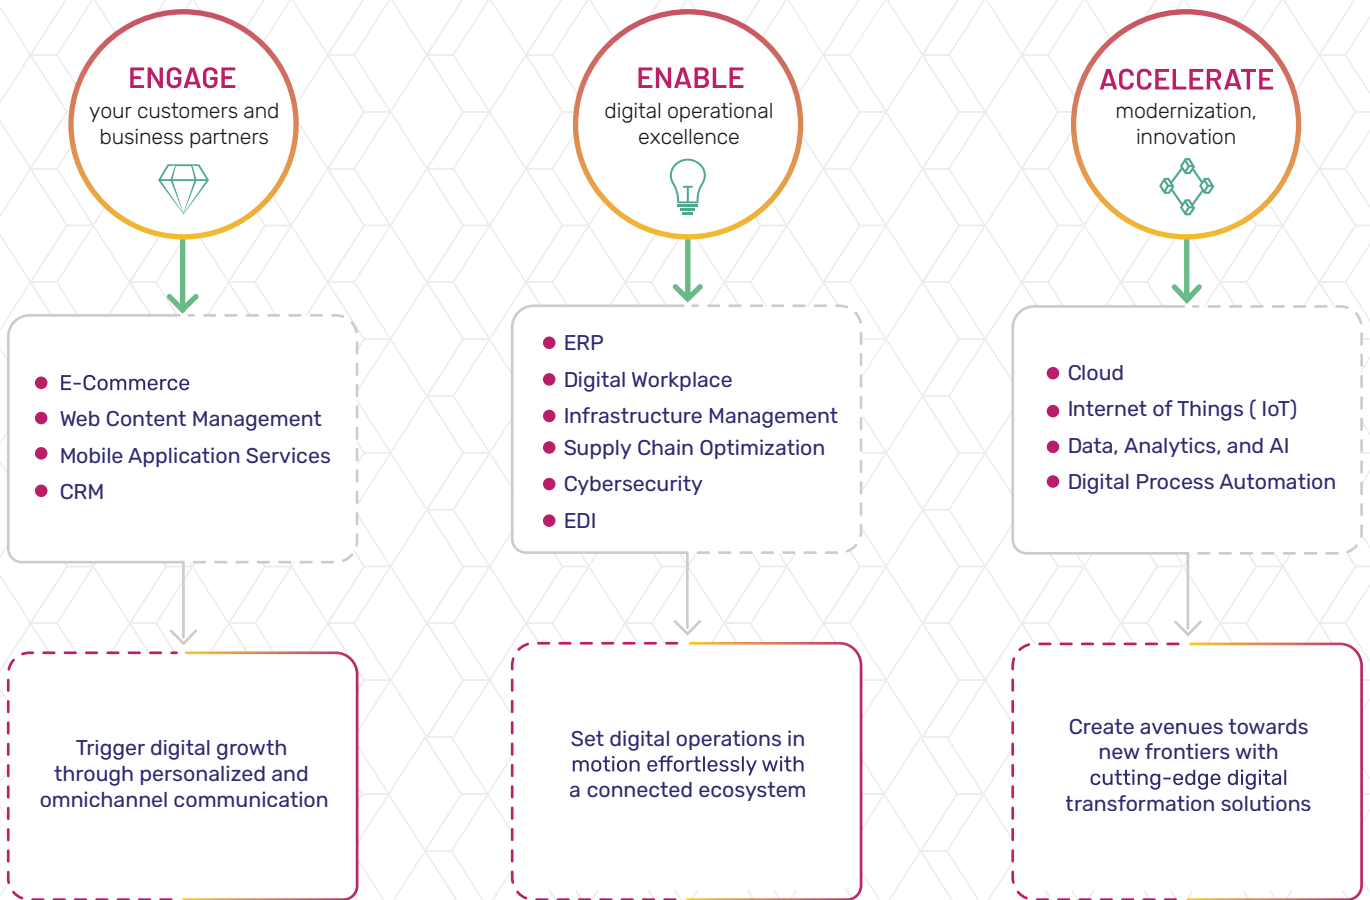

Our strategic partnerships and alliances

Our 24/7 global delivery model providing a lower TCO, expert certified professionals, and proven design thinking methodology with an agile approach helps us to #FocusOnYou.

#FocusOnGrowth with our supercharged services

Leverage them to engage, enable, and accelerate progress

Make the move to agility and better decision making for the digital world

Cloud

Ride across hybrid cloud environments and software-defined datacentres for better IT management and analytics.

Digital Process Automation

Unlock the next level of performance in your organization by leveraging next-generation automation technologies.

Internet of Things (IoT)

Get the lead in real-time data through IoT platforms and devices across a variety of use cases.

Data Engineering and Management

Collect, store, process, and analyze data securely to drive innovation, improve customer experience, and create new revenue streams.

AI and Predictive Analytics

Empower the enterprise with intelligent predictions based on AI powered predictive analytics.

1 Accelerate mobility and security for your critical applications with cloud migration

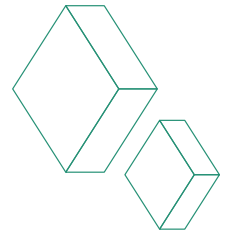

2 Leverage IIOT powered smart platforms to maximize your value from operations

3 Operationalize data model of your business and distribute insights at scale

4 Improve process automation and enhance workflow management with Robotic and Digital Process Automation

#FocusOnDigital best for your industry

We have the expertise to help you excel
Drive exceptional outcomes with targeted tech solutions

Discrete Manufacturing

Improve business outcomes for discrete manufacturing operations with better supply chain management, efficient production planning, and predictive maintenance.

Process Manufacturing

Integrate your process manufacturing operations with accounting, purchasing, and suppliers to improve demand forecasting, cash flow, and supply chain visibility.

Logistics

Harness advanced warehouse management with systems that can automate your business in the front-and back-end using real-time data.

Non-Profit

Enrich stakeholder experiences with integrated operations, donor and grant management, data security, and compliance.

BFSI

Drive intelligent banking and financial services that can combat fraud, personalize customers' financial experiences, and improve risk insights.

Retail & Fashion

Build stores of the future that offer modern and dynamic experiences, or enhance omni-channel engagement with digital customers.

CPG

Optimize supply chains, enhance customer engagement, and drive innovation through data-driven insights and automation.

QSR

Delight your customers by harmonizing quality service and menu while reducing costs.

Pharma

Streamline operations, accelerate drug development, and improve patient outcome by modernizing your processes.

Why Korcomptenz?

We have close to two decades of experience and a strong, dynamic team across the globe to help companies build their digital capabilities using innovative technologies and bespoke methodologies.

- ✔ Full stack experience and expertise throughout your organization's technology ecosystem
- ✔ Experience with single site, multi-site, and international enterprises
- ✔ Proven record of delivering rapid, cost-effective, and high-quality implementations
- ✔ As a Microsoft Dynamics 365 Center of Excellence, we assure predictable delivery of Enterprise Applications
- ✔ End to end services to power your Digital Transformations

Our Core Values

Our goal is to build a dynamic team, grounded in the wisdom of Panchatattva - a philosophy that champions the balance and harmony of the five elements. By embodying these principles, we aim to create a cohesive and effective organization where every team member feels valued and empowered to contribute their unique strengths.

Ownership

With commitment and determination,
we get the job done

Integrity

We have the courage to be ethical
in letter and spirit

Farsightedness

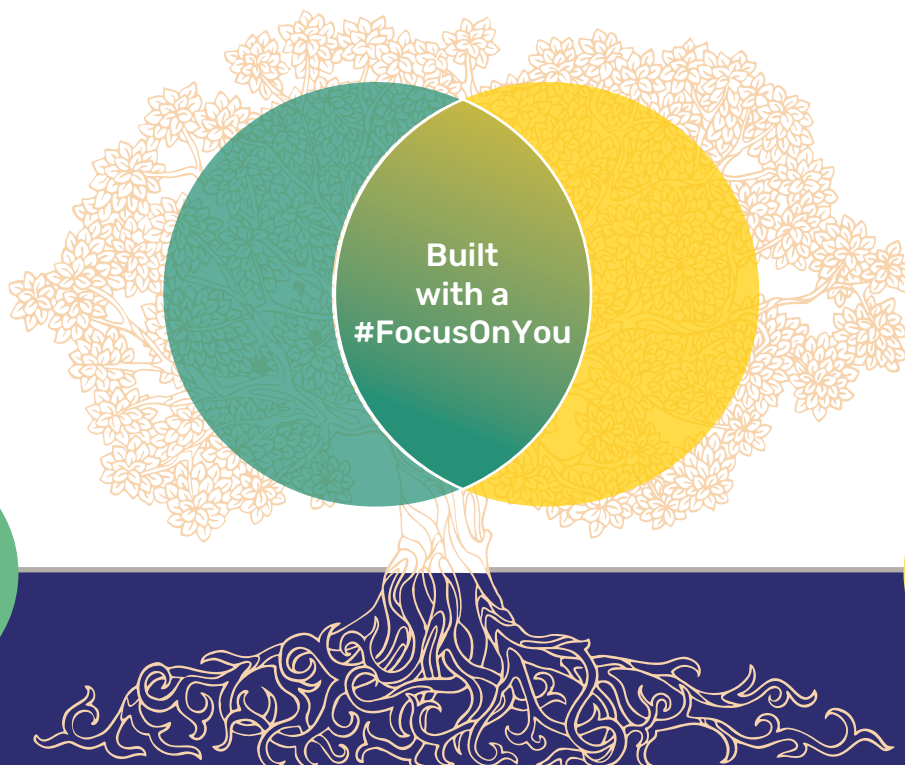

We look at the bigger picture to create
solutions for the entire ecosystem

Responsiveness

Putting the customer first makes us
proactive rather than reactive

Contagious curiosity

We innovate for the greater good and
never lose the thirst for knowledge

Our Global Partnership and Technology Stack
